The growth required to become the player you aspire to be is not solely achieved on the court; it also takes place in the weight room, emotionally, and mentally. WAYS WE WILL EVALUATE & IMPROVE:

Evaluation is conducted through film analysis, in-game assessments, and the trained eyes of our professionals during drills and workouts. Our skills evaluation consists of three tiers, each with a three-level breakdown. Capable, elite, and unstoppable.

Enhancing IQ Through Film Analysis and Drills:

By examining game footage and drills, we aim to elevate players' basketball IQ and overall comprehension of the game. Our insights and breakdowns will assist in conceptualizing drills, interpreting plays, and applying strategies to real-game situations.

EVALUATION

Through the skills outlined below, we categorize different tiers to assess both the initial stages of a player's development and their progress over time. Each tier is divided into three levels to provide context:

Tier 1: High School

- Level 1: Capable
- Level 2: School Elite
- Level 3: Unstoppable

Tier 2: College Level

Tier 3: Professional Level

It's important to note that skill sets may vary across different tiers and levels. Our ultimate goal is to help clients develop 2 to 3 skills that reach the Tier 3 Level 2 area, maximizing their chances of achieving their goals.
